Ahmed Adnane Meddah

AI Engineering Student | Mathematics & Theoretical Research

Blida, Algeria | +213 540 45 99 39 | ahmed-adnane.meddah@ensia.edu.dz | GitHub | LinkedIn | Portfolio

PROFILE

Third-year AI engineering student at ENSIA (top 10%) with a strong mathematical olympiad background, including two IMO honorable mentions, and an IMC bronze medal. Research interests include mathematical optimization, probability theory, and theoretical machine learning, particularly the mathematical foundations of AI. Seeking a research-oriented Master's in applied mathematics or theoretical machine learning.

EDUCATION

Engineering Degree in Artificial Intelligence, *ENSIA, Algiers* 2024 – present
Rank A; top 10% of the cohort. Annual averages: 15.49/20 (Year 1) and 15.07/20 (Year 2).

Baccalauréat in Mathematics, *Algeria* 2021 – 2024
Mention Excellent; overall average above 18/20, including 20/20 in mathematics.

RESEARCH

Configuration Spaces in Normed Spaces, *Supervisor: Ghani Zeghib, CNRS & ENS Lyon* 2026 – present
Investigating the geometric and topological properties of configuration spaces in normed spaces as part of a collaborative research project.

OLYMPIAD DISTINCTIONS

IMO: Honorable Mention in 2023 and 2024 (2 points short of bronze in 2024; 9th place in Africa).
IMC 2025: Bronze Medal, International Mathematics Competition for University Students (Bulgaria).
Gold: PAMO 2024; ALMO 2024; National Olympiad 2022 (perfect score).
Silver: OFM 2024 (1 point short of gold); OFMJ 2023; Iranian Geometry Olympiad (IGO) 2024.

LEADERSHIP & TEACHING

President, *Algerian Mathematical Olympiad (AMO)* Aug. 2026 – present
Lead national operations, coordinate organizing teams and competitions, and oversee international team selection.

Coach & International Organizer, *AMO* 2024 – present
Coached 500+ students; led selection-test development and served as head coach. Organized the 2025 national finals (200+ participants). Delegation roles: IGO 2025 Head Leader, OFM 2025 Deputy Leader, IMO 2025 Coordinator, BMO 2026 and IMO 2026 Observer A, and PAMO grading coordinator.

Coach, *Algerian Informatics Olympiad* 2024 – 2025
Trained 50+ students in algorithms and data structures; contributed to selection tests and training camps.

Lecturer, *African Olympiad Academy, remote* 2025 – present
Teach mathematics and computer science to students across 10+ African countries.

PROJECTS & COMMUNITY BUILDING

- **Algiers in 24h** (team of 6, ENSIA): Developed a tour-planning system for Algiers modeled as an orienteering problem with time windows. Compared greedy heuristics, GRASP, simulated annealing, tabu search, genetic algorithms, and an exact CPLEX model on Solomon benchmarks.
- **ADN projects:** Project hub including ADNMission (interactive geography game), epsilon (52 precision-based games), 4DN (four-player cooperative game), Asma'ul Husna (Cultural memorization platform), AMO Testing Platform, and my portfolio.
- **Discord Automation:** Developed bots for server administration, thread creation, role assignment, and a virtual economy featuring a credit ledger, shop, XP levels, achievements, and competition entry fees and prizes.
- **BAC World (Founder):** Built a community of 1,000+ Algerian baccalaureate students (2024 – 2026).
- **Academic Horizon Hub:** Co-organized an academic community of 1,000+ members (2024 – 2026).

EXPERIENCE & MATHEMATICAL TRAINING

Networking and Data Storage Intern, *SARL El ORABI System, Algeria* Aug. – Sep. 2026
Configured VLANs, DHCP, IP addressing, and firewalls; deployed servers and virtual machines with Proxmox VE; assisted with routing and storage; performed troubleshooting and cable-related tasks; and tested web and mobile applications.

MathCamp (6th edition) and MathWin program, *Advanced mathematics training* 2025 – 2026
Courses in PDEs, dynamical systems, Fourier analysis, random walks, quantum mechanics, differential geometry, and topology.

TECHNICAL SKILLS & LANGUAGES

Programming: Python, C++, Java, JavaScript/TypeScript, SQL, Git, LaTeX. **Web:** React, Node.js, Express.
Data: NumPy, Pandas, PyTorch, MySQL, MongoDB.
Systems & Networking: Proxmox VE, MobaXterm, VLANs, DHCP, firewalls, SSH, OSPF, network troubleshooting.
Languages: Arabic (native), English (fluent), French (B2, TCF).

ACTIVITIES & INTERESTS

Student Representation: Section delegate, representing classmates and communicating academic concerns.
Campus Involvement: Events Department member at the ETC and Skillntell clubs, contributing to events such as Arcade.
Sports & Interests: Regular gym training; independent exploration of physical geography, geology, and Earth systems.
